

Additional Client Resources for Adelaide Office

From 1 July 2009 the Adelaide office of EMA Consulting is expanding to improve client services. These services will improve client resourcing in the areas of Work Injury Management and Industrial Relations.

As a direct consequence of increased client demand for EMA Consulting services, we are pleased to announce the following appointments:

Work Injury Management – Olive Blackman

Olive joins Judy Stone's team as a specialist rehabilitation and OH&S consultant. Olive has extensive experience in these areas. Olive has previously run her own business providing services in these areas and most recently lead a team of specialists providing consulting services to South Australian employers.

Olive commences on 1 July 2009 in our Adelaide office. We have high expectations that her expertise will be highly valued by EMAC clients in South Australia.

Industrial Relations – Sultan Kayal

Sultan joins the Industrial Relations team in Adelaide on Monday, 6 July 2009, having previously worked in a number of law firms at senior levels, specialising in employment relations matters. Sultan has extensive IR experience and most recently commenced consulting to clients in his own right, branching out into the more practical aspects of day to day IR management.

Given the pending commencement of the *Fair Work Act 2009*, this appointment is a timely and valuable additional to the IR capabilities of the Adelaide Office.

Product Development – Ashleigh Smith and Melissa Trowbridge

From 1 July 2009, Ashleigh and Mel will be fully devoted to the development, presentation and servicing of our products range. It is clear from client demand that these products are necessary to help our clients better manage their workplace needs, and the recent interest in our Employee Management System ("EMS") (and the soon to be released OH&S and Performance Management Products) have encouraged us to expand these services.

As a consequence, Ashleigh and Melissa will, from 1 July 2009, be concentrating on new product development.

For any further information please contact your local EMA Consulting office.
